STAFF NEWS

The Computer Technology shop is asking for your old and tired cell phones. If you know of anyone who has recently received a new phone, we will take the old ones, regardless of working, damaged, or not. Spread the word to your relatives and friends as well. The students recycle them for cash to buy computer components for the refurbishment program. Drop the phones off in room 2158 anytime. Thanks!

Personal Computer Repair & Refurbishment Program - The Computer Technology shop will take your s-l-o-w home computer and put new life back into it! The "Tune-Up" is free unless we have to buy parts. We will also upgrade memory (if you buy it first) and clean the machine internally. The only requirement is the computer has to be owned by a resident or employee of the district. Email me with any questions about the program at tranterb@tantasqua.org.
